Build your dreams with authentic clay pavers
Durable • Colorfast • Sustainable
Here’s what makes our clay pavers so great.

Pine Hall Brick pavers have a wide range of colors with great aesthetic appeal that create hardscapes for both modern and historic settings. Homeowners covet clay pavers because they are authentic brick. Designers and architects value the latitude to fit them into almost any design.

- Durability – clay pavers withstand generations of use in the most demanding environments.
- Colorfast – our pavers never fade, because the color is integral to the molding and firing process.
- Extreme Weathering—Pine Hall Brick clay pavers greatly exceed the most rigorous Freeze-THaw test in the paving industry.
- Strength – we make our pavers to the demanding specification of 12,000 psi average compressive strength.

- Sustainability – clay pavers are formed from two of the most basic materials there are: dirt and water. They last for generations and can also provide permeable surfaces to protect the environment from water runoff.

Since 1922, Pine Hall Brick has continuously developed new and better ways to manufacture clay pavers. At our state-of-the-art facilities, we produce thousands of pavers daily.

Family owned with plants in North Carolina and Georgia we are a business dedicated to defining the standard of segmental paving with America’s Premier Paver™.
For your backyard
A great outdoor living space enhances the beauty, function and value of any home. Your dream backyard starts with authentic clay pavers from Pine Hall Brick.

For your driveway
Strong, Durable. Colorfast. Make a statement with a clay paver driveway. They are virtually maintenance free and don’t need expensive sealers to look good over time. Decades from now they will look as good as the day they were installed.

For your interior
Our 1/2" thick PaverTiles allow the homeowner to bring the beauty and authentic appeal of clay pavers indoors.

For the DIYer
Perfect for the weekend warrior who wants to rehab an ugly concrete slab or create a patio from scratch. Pine Hall Brick has the products and knowledge to help make your work look great.
Beveled Edge Pavers

English Edge and Georgian Edge pavers both have beveled edges and spacer bars for a crisp look that installs with ease. Beveled edge pavers are available in standard 4” x 8” by 2.25” thickness, as well as 2.75” thickness for heavy vehicular applications. Beveled edge pavers are recommended for driveways and other vehicular applications.

### English Edge

Beveled edge gives projects a crisp joint

Space bars provide for best interlock and consistent joint

pinehallbrick.com
Traditional Edge Pavers

Traditional Edge pavers have square edges for the timeless appearance of authentic clay pavers made for over a hundred years. Traditional Edge pavers need to be laid with a minimum 1/16” sand joint to minimize chipping.

Rumbled Cocoa and Rumbled Java blend
Rumbled Pavers

Tumbled after firing to produce a look similar to an historic street paver that has been around for decades. Rumbled pavers are available in standard 4” x 8” by 2.25” thickness, as well as 2.75” thickness for heavy vehicular applications. Rumbled pavers are recommended for driveways and other vehicular applications.

Old Series Pavers

Here’s another take on “timeless” with our specially cut antique edge pavers that pay tribute to early American structures and streets. Old Series pavers feature antique edges and surface texture for a rustic appearance in unique colors. Old Series pavers are suitable for light vehicular applications with appropriate spacing.

Ceramic surface coating create unique color blends

StormPave™ Water Permeable Pavers

StormPave™ is an amazing breakthrough in water permeable paving. StormPave clay pavers have beveled edges and large spacer bars that allow rain to filter between washed aggregate in the joints to a specially constructed catchment area underneath the pavers. The water then dissipates naturally into the native soils. StromPave pavers are available in standard 4” x 8” by 2.25” thickness as well as 2.75” thickness for heavy vehicular applications.

For more information, go to pinehallbrick.com/permeable

Available in both Beveled Edge and Rumbled texture

1/4” spacer bars allow water to filter between the joints

New Products

4” x 12” Linear Pavers

Pavers are 4” x 12” by 2.25” thickness. The pavers are available in Traditional Edge, Rumbled or Beveled Edge (no spacer bar) style and are available in the following colors: Red, Full Range, Autumn, Cocoa, Rose and Dark Accent. Traditional Edge in both Red and Full Range are stock colors.

Plymouth Tumbled Modular Paver

A true tumbled paver, Plymouth Tumbled Modular paver is 7-5/8” by 3-5/8” by 2-1/4” thickness. It can be laid both with mortar or with sand in a running bond or chevron pattern.

PaverTiles

PaverTiles are 1/2” thick tiles made from our authentic clay pavers. Perfect for indoor use in kitchens and mud rooms or outdoor applications that can't accommodate a thicker paver. All of Pine Hall Brick’s pavers are available as PaverTiles.
